Company Overview:

Widget Works, LLC is a custom design mechanical base company that exists to creatively and efficiently develop innovative ideas from concepts to reality.

Widget Works is dedicated to bringing to the public – safe, unique, imaginative and effective products that enrich the safety, health, productivity, and general well being to all. Widget Works' first and newly patented product on the market is called the E-Board.

Product Overview:

ERGONOMIC. ADAPTABLE. VERSATILE.

The E-Board's patented design captures interactive functionality in a timeless design with the aid of modern technology. With the integration of a large HDTV flat screen, the E-Board is a very adaptable, ergonomically engineered device that's mobile, compact and extremely versatile.

The E-Board's interactive functionality readily adapts to multiple user working preferences and needs, making it one of the most multi-purposed productivity instruments in the workplace.

Strategic Associations:

Widget Works has established relationships with local independent and government community organizations.
